

PAMTIGHT Manhole Covers

The optimum choice for applications requiring air and water impermeability, PAMTIGHT provides advanced solutions for today's public works departments, engineers and maintenance personnel, resisting traffic shock and offering enhanced ergonomics for installers. Product highlights include:

- An elastomer sealing ring and a polyethylene seating ring
- Exceeds H20 AASHTO loading requirements
- Withstand pressures of 14½ PSI
- Unique bolting system that allows that for easy maintenance
- Wide access for cleaning catch pit

REXUS Manhole Covers

These covers supply municipalities optimum security, thanks to the unique spring locking mechanism and spline. The use of ductile iron makes this cover one-man operable with standard tools, and provides easy and safe access. Product highlights include:

- Exceeds H20 AASHTO loading requirements
- Easily opened and closed with standard tools; blocks at 90 degrees
- Ideal for storm applications and raised manholes

REXUS Gratings

REXUS gratings feature an ergonomic hinged design that offers complete operating safety to installers. Made from lightweight but super strong ductile iron, REXUS gratings provide excellent strength-to-weight ratio and exceed H20 AASHTO loading requirements. Product highlights include:

- High water clearing capacity; 30% more efficient than old units
- Easy to open and close (after silting and heavy traffic)
- Wide access for cleaning catch pit

SELECTA Curb Units

Our SELECTA gratings provide high water capacity and easy access to curbside draining applications, and are excellent for areas that experience intense traffic. Our unique, innovative design maximizes water absorption, minimizes debris problems, and enhances safety for pedestrians and cyclists. Product highlights include:

- Locks down to prevent unwanted access
- Grate and cover open independently for easy cleaning
- Cover adjustable to suit curb line

TRAFFIC RATED

EASY AND SAFE ONE-MAN OPERATION

REDUCED INFILTRATION

AUTOMATIC SURGE RELEASE

ANTI-THEFT/SECURITY

Get Hinged... ...with PAMREX

Technically advanced. Simple to operate.

PAMREX. Technically advanced. Simple to operate.

Made from strong, lightweight ductile iron, PAMREX manhole covers are half the weight of traditional cast-iron alternatives. Add in an innovative hinge design and a range of other user features and you have access covers that meet all of your needs. So if you are looking for easy to operate covers designed for long-term durability, infiltration resistance and security from unwanted visitors, look no further. **PAMREX** – it's time to get hinged!

Retrofit Badge Covers

Our latest innovation? Manhole covers designed specifically to accommodate easy attachment of customized storm drain badges. Offered on the PAMREX and REXUS lines of ductile iron manhole covers, this option allows municipalities a convenient and effective way to badge their covers with city names, logos, or other information (such as GPS coordinates, installation dates and location codes).
